Maui County Office on Aging

Aloha,

At the heart of the Maui County Office on Aging is the provision of services to frail elders needed to maintain them in the comfort of their homes and ease burdens to their family caregivers. The function of the Aging and Disability Resource Center is to provide one-stop information and referral to resources that are vital to the populations we serve: frail elders, adults with disabilities, and their caregivers.

The Maui County Office on Aging's program specialists manages contracts with agencies that provide an array of services, including adult day care, transportation to medical appointments, chore and homemaker, home-delivered meals, personal care, and more. MCOA also administers Healthy Aging Programs, including Better Choices, Better Health®, EnhanceFitness®, and Powerful Tools for Caregivers®; three evidence-based programs that improve the quality of our seniors' lives and their caregivers.

The Office on Aging outreach team visits elders in their homes to assess their level of need and link them to home and community-based services that keep them safe, comfortable, and from feeling isolated and alone.

For our family caregivers, including grandparents raising grandchildren, services within these pages may make life easier as you perform your vital function to loved ones.

We hope you will find all the resources you need at your fingertips in this Resource Directory. However, if you know of any missing agencies or services, please contact the Office on Aging, and we will be happy to consider them for inclusion in the next printing of this Resource Directory for frail elders, family caregivers and persons with disabilities.

With Aloha,

The Staff of the Maui County Office on Aging

Better Choices, Better Health

Better Choices, Better Health is an evidence-based educational program designed by Stanford University and Kaiser Permanente to help people manage their chronic conditions and improve their overall health through achievable action plans for nutrition, exercise, relaxation, communication skills, medication management, and more.

Better Choices, Better Health workshops are offered on Maui, Molokai and Lanai. The workshop series is comprised of 2.5 hour weekly class sessions for six weeks. Participants receive a book, "Living a Healthy Life with Chronic Conditions," and a relaxation CD, "Time for Healing." Cost is \$10 for individuals age 60+ and for caregivers of any age. Under 60 years? The cost is \$35. Scholarships are available.

EnhanceFitness®

EnhanceFitness® is a program designed to help adults aged 50 and older - at all fitness levels - to become more active and energized, and empowered to sustain independent lives. EnhanceFitness® improves cardiovascular fitness, strength, and flexibility while reducing health care costs for regular participants. Exercise protects against heart attacks, lowers high blood pressure and bad cholesterol, improves mental functioning, and reduces the incidence of falls.

The one-hour classes are ongoing and held three times weekly. The exercises include aerobic/cardiovascular, balance and stretching, and strength training. Certified instructors lead classes that are safe and effective for individuals with a wide range of physical abilities. Progress is measured with fitness checks at the time of enrollment and again at 4 months.

For more information on the Maui County Office on Aging's Healthy Aging Programs, call MCOA at 270-7755. To register for EnhanceFitness®, call Master Trainer Paula Keele at **870-5530**.

MEDIATION SERVICES

Alternative Dispute Resolution (ADR) involves the resolution of a matter by a method other than traditional litigation. There are three main types of ADR: negotiation, mediation (including conciliation), and arbitration.

Mediation Services of Maui.....(808) 244-5744

95 Mahalani St., Ste. 25, Wailuku, HI 96793

www.mauimmediation.org

Mediators are professionals from the community who have received specialized training in conflict resolution and communication skills. They work with parties to develop options, consider alternatives and come to a win-win solution. Mediators do not give advice, counsel, or decide who is right or wrong.

ADVOCACY AND LEGAL SERVICES

Training is held once a year and the timing varies. Mediation is a cost effective way of settling disputes. It is a voluntary and confidential process in which two or more people face to face work out a mutually acceptable solution to their problem. They are assisted by a neutral third party, called a mediator. The cost is on a sliding scale, based on income.

OMBUDSMAN

Hawaii State Ombudsman.....(808) 984-2400
 Office of the Ombudsman **Molokai/Lanai 1-800-468-4644**
 465 S. King St., 4th Floor, Honolulu, HI 96813

The Office of the Ombudsman is an independent agency of the Hawaii State Legislature that investigates complaints about actions of executive branch agencies of the state and county governments in Hawaii. Their office has the power to obtain necessary information for an investigation and to recommend corrective action if a complaint is found to be substantiated.

The Ombudsman serves as a neutral, independent intermediary between the citizen and the agency. They conduct their investigations in a fair and impartial manner. They do not provide legal advice, nor do they serve as an advocate or representative of any person or agency.

Community Case Management Corporation(888) 792-1070

Community Case Management Corporation's role in this program is to help Medicaid eligible individuals access dental care. They provide assistance to all of the islands. Finding a participating dentist who will treat Medicaid patients can be a challenge. Community Case Management Corporation will help Medicaid recipients find a dental office on their island to receive covered benefits.

- Adult dental services are limited to “**emergency care.**” Emergency care is limited to extractions and control of pain or infection related to the teeth. Medicaid **does not cover** restorative treatment such as fillings, root canals, dentures, and cleanings.
- Children and adolescents under 21 years of age can receive comprehensive dental care. Comprehensive care includes x-rays, regular cleanings, restorative care such as fillings for cavities and preventive care such as topical fluoride treatment.

MEDICARE

www.medicare.gov

Medicare is the federal health insurance program for people who are 65 or older, certain younger people with disabilities, and people with end-stage renal disease (permanent kidney failure requiring dialysis or a transplant, sometimes called ESRD).

When you first enroll in Medicare, you will have Original Medicare, unless you make another choice. There are different ways you can get Medicare coverage, including a Medicare Advantage Plan (like HMO or PPO). In some types of plans that do not offer drug coverage, you may be able to join a Medicare Prescription Drug Plan (Part D).

Kupuna Care is a state-sponsored program administered by the Maui County Office on Aging in Maui County. The program is designed to meet the needs of frail older adults who cannot live at home without adequate help from family and/or formal services. To qualify for Kupuna Care services, an individual must meet all of the following requirements:

- U.S. citizen or qualified alien
- 60 years or older
- Client is not already receiving service from another government (e.g. Medicaid) or private service (e.g. Home Health Agency) provider
- Live in a residence, not an institution (intermediate care facility, skilled nursing facility, adult residential care home, hospital, or foster family)
- Have impairment of two or more activities of daily living (ADL)* or instrumental activities of daily living (IADL)** or significantly reduced mental capacity
- Have two or more unmet activities of daily living* or instrumental activities of daily living** need

*Activities of daily living (ADL) are routine activities that people tend to do everyday without needing assistance. There are six basic ADLs: eating, bathing, dressing, toileting, transferring (walking) and continence.

**Instrumental activities of daily living (IADLs) are the complex skills needed to successfully live independently. These skills are usually learned during the teenage years and include the following: preparing meals, shopping, managing money, using the telephone, doing housework, using public transportation, and managing/taking medications.

EMERGENCY PREPAREDNESS

County of Maui- Emergency Management Agency(808) 270-7285
200 S. High St., Wailuku, HI 96793 www.mauicounty.gov

Preparedness information and brochures are available at the County of Maui in the second floor lobby of the Kalana O Maui Building at 200 S. High St., Wailuku. During an emergency or threat of disaster, Civil Defense information will be broadcast over local radio and TV stations. When an evacuation is necessary, these broadcasts may include information about the location of public emergency hurricane shelters in affected areas. More information, including the location of shelters designated for people with special health needs and facilities for household pets may be broadcast, as well as when volunteers will be available to open shelters and direct evacuees to the appropriate areas.

Since public emergency hurricane shelters do not stock supplies, bring provisions from your emergency supply kit at home. You will need at least a fourteen-day supply of food, water, and personal items for yourself, family members, and household pets.

Maka'ala- Maui County Emergency Alert System(808) 270-7285

Maui County Emergency Alert System is a free service that enables you to sign up and receive emergency notifications. This service allows agencies dealing with emergency response to send out accurate and up-to-date information.

Warning Sirens and Procedures

A monthly test of the Emergency Alert System (EAS) and warning sirens is conducted at 11:45 am on the first State work day of each month. This consists of a 60 second steady tone.

During a natural disaster, a steady three-minute siren tone is the attention alert signal. When the siren is heard, tune your radio or television to any local station and listen for emergency information and instructions. Listen to EAS broadcasts for further instructions and the all-clear announcement.

During a man-made attack, a wailing three-minute siren tone is the attention alert signal. When the siren is heard, "Get inside, Stay Inside, Stay tuned." As practical as possible enter a structure, be prepared to spend 14 days within that structure, and stay

tuned to your radio, television of any local station and listen for emergency information and instructions. Listen to EAS broadcasts for further instructions and the all-clear announcement.

Information Access

The Emergency Management Agency will provide you with the information you need. Emergency instructions are broadcast over radio, television, and cable television systems. Tune to your local station when you hear the warning sirens and do not use the telephone except for serious emergencies.

Weather Information Sources

NOAA Weather Radio broadcasts on the following frequencies:

- 162.550 MHz
- 162.400 MHz

NOAA Weather Radio broadcast recording phone number:

Island Wide..... 1 (866) 944-5025

Personal Preparation Plan

Take the following steps to help prepare you and your family for a disaster:

- Be prepared. Make sure all family members know what to do in case of emergency.
- Decide where the family will meet if separated, where you will seek shelter, and what you will take with you if you must evacuate.
- If an emergency occurs, remain calm. Follow your plan. Listen to the radio or television for instructions and information.
- Know warning signals and shelter locations.

CIVIL DEFENSE SIRENS

If the Civil Defense sirens sound at any time other than during the test period, which is at 11:45 a.m. on the first working day of each month, turn your radio to one of the following local radio stations for information:

- | | |
|------------------------------------|-------------------------------------|
| 1. KMVI-AM 550 | 8. KLHI-FM 101.1 (West Maui) |
| 2. KNUI-AM 900 | 9. KNUI-FM 99.9 |
| 3. KAOI-AM 1110 | 10. KONI-FM 104.7 |
| 4. KPOA-FM 93.5 (West Maui) | 11. KPMW-FM 105.5 |
| 5. KAOI-FM 95.1 | 12. KDLX-FM 94.3 |
| 6. KAOI-FM 96.7 (Upcountry) | 13. KNUQ-FM 103.7 |
| 7. KMVI-FM 98.3 | |

After turning on your radio, listen for emergency information and instructions. Take the necessary protective actions as directed and keep tuned for further information and instructions.

EMERGENCY PREPAREDNESS

WATCH OR WARNING?

WATCH - GET READY and LISTEN

- WATCH status means you should GET READY and LISTEN to your radio or television for further instructions.

WARNING - TAKE ACTION

- WARNING status means you should TAKE ACTION.

DISASTER PREPAREDNESS

Disaster Preparedness is an individual and family responsibility. The two most important precautions you need to take are developing a Personal Preparation Plan and assembling an Emergency Survival Kit.

BEFORE a disaster strikes:

- Prepare a home survival kit ready for use in emergencies.
- Plan in advance where to locate household members in case they are separated.
- Store important papers and valuables in waterproof packaging where they can be easily reached if you plan to take these items with you.
- Keep the car gas tank at least 3/4 full

PERSONAL PREPARATION PLAN

Emergencies and disasters can occur anytime. Some allow for preparation, while others occur without warning. Residents and visitors of Hawaii must be prepared for emergencies that could arise from natural or technological disasters.

Developing your Personal Preparation Plan and making provisions for your family's needs can make a big difference in your ability to cope with emergencies.

Take the following steps to help prepare you and your family for a disaster:

- Be prepared. Make sure all family members know what to do in case of emergency.
- Decide where the family will meet if separated, where you will seek shelter, and what you will take with you if you must evacuate.
- If an emergency occurs, remain calm. Follow your plan. Listen to the radio or television for instructions and information.
- Know warning signals and shelter locations.

IF YOU ARE DISABLED

The County will not be able to make evacuation transportation for you. Be sure to find neighbors who would agree to help you evacuate in case of a disaster. Be sure to have your survival kit ready to go on a moment's notice.

Emergency Survival Kit

Use the following list as a guideline when preparing your Emergency Survival Kit:

- Four-week supply of prescription medicines
- Five-day supply of non-perishable food
- Non-perishable special dietary foods
- Ice chest
- Water - a minimum of one gallon per person per day
- Pet food
- Candles
- Matches
- Fuel for stoves, hibachis, or lanterns
- Pillows, blankets, sleeping bags, or air mattresses
- Flashlights, batteries and extra bulbs
- Portable radio and extra batteries
- Cell phone with charger, inverter, or solar charger
- Extra clothing, eye glasses
- Masking tape for windows and glass doors
- Personal hygiene items such as toothbrush, toothpaste, deodorant, etc.
- Special items for infants, elderly or family members with special needs
- Quiet games, books, playing cards, and favorite toys for children
- Important papers including driver's license, special medical information, insurance policies, and written or videotaped property inventories
- First aid kit and water purification kit (tablets or chlorine available at drug stores)

DISASTER DO'S AND DON'T'S

- DON'T use the telephone. Leave lines open for emergency calls only. Don't touch downed power lines or objects in contact with power lines. Don't use elevators, use stairways instead. Don't go sightseeing.
- DON'T spread rumors. Get the facts from official sources.
- DO secure your home. Lock doors and windows. Know where to locate electrical, water and gas sources if advised to turn off utilities. Secure or store objects that may cause damage or injury.
- DO stay tuned to a local radio or TV station for official weather and civil defense instructions.

FREQUENTLY ASKED QUESTIONS

Should I evacuate or stay where I am?

Information about which areas should be evacuated will be broadcast over the Emergency Alert System (EAS) on your radio or local TV. Evacuation instructions are issued with your safety in mind. Compliance is voluntary, but orders are given only in the most serious of circumstances.

EMERGENCY PREPAREDNESS

If your area is advised to evacuate and you are unable to do so, immediately inform the authorities of your situation. If you area is not advised to evacuate, you may still report to the designated shelter closest to your location.

What should I do to protect my pets/animals?

Make advanced preparations to ensure the safety of your pets:

1. **FOOD**: Keep at least two weeks of food in an airtight, waterproof container. Dry food has a shelf life, so rotate periodically.
2. **WATER**: Store at least two weeks of water specifically for your pets in addition to water you need for yourself and family.
3. **MEDICINE**: Keep an extra supply of medicines your pet takes on a regular basis in a waterproof container.
4. **FIRST AID KIT**: Talk to your veterinarian about what is most appropriate for your pet's emergency medical needs.
5. **COLLAR with ID TAG, HARNESS or LEASH**: Your pet should wear a collar with its identification at all times. Permanent methods of identification like microchips or tattooing should be used.

6. **CRATE/PET CARRIER**: If you need to evacuate in an emergency situation, take your pets and animals with you - provided it is practical to do so. In many cases, your ability to do so will be aided by having a sturdy, safe, comfortable crate or carrier ready for transporting your pet. The carrier should be large enough for your pet to stand, turn around and lie down. Help your dog get accustomed to the crate by using it from time to time. Do not wait until emotions and stress are high due to an emergency situation to introduce your pet to the carrier or crate.

7. **FAMILIAR ITEMS**: Put favorite toys, treats, or bedding in your kit. Familiar items can help reduce stress for your pet.

For further information, go to the Maui Humane Society website at www.mauihumanesociety.org.

What should I do during a hurricane?

Once you are in the safest place possible - wait and listen to your radio for further instructions. Do not go outside since flying objects can seriously injure you. Travel is extremely dangerous during a hurricane.

Stay on the first floor, unless flooding will occur, and stay away from glass windows. Go to the strongest parts of the house or building and stay there. If necessary, use mattresses and blankets to form a protective barrier around you.

EMERGENCY PREPAREDNESS

If the eye of the storm passes over you, the wind may completely stop for a few minutes to half an hour or more. Do not mistake this lull for the end of the hurricane! Stay indoors unless emergency precautions or emergency movement to a safer location are absolutely necessary. The other side of the hurricane is coming and will create hurricane force winds from the opposite direction.

What is a tsunami?

A tsunami is a series of traveling ocean waves of extremely long length. These generally appear as a large, steep wave face and produce rapid flooding of low-lying coastal areas. These are generated by disturbances associated primarily with earthquakes occurring below or near the ocean floor. This can also be generated by landslides, both above and beneath the surface of the ocean.

It may take hours for tsunami waves to reach the Coast of Maui County following an earthquake far out in the Pacific Ocean. The Pacific Tsunami Warning Center located on Oahu alerts local officials who may order evacuation. Some isolated areas may not receive official announcements. If you notice a sudden drop or rise in sea level, it may be a warning of impending danger. Move to high ground or inland immediately.

The waves can kill and injure people and cause great property damage where they come ashore. The first wave is often not the largest and may be spaced many miles and minutes apart. They may also continue to arrive for several hours.

The most destructive tsunami can be classified as local or regional, meaning their destructive effects are confined to coasts within 60 - 600 miles of the source -- usually an earthquake. It follows that the majority of tsunami related casualties and property damage also come from local tsunami.

Where and when do tsunamis occur?

Tsunamis can inflict severe damage to property and pose a threat to life in coastal communities. Although most people imagine a tsunami as a large, steep wave breaking on the shore, tsunamis generally appear as an advancing tide without a developed wave face and produce rapid flooding of beaches open to the ocean, low-lying coastal areas, bay entrances or tidal flats, and the shores of coastal rivers. Tsunamis can occur at any time of the day or night, under any weather conditions, and in all seasons.

How do I know when to evacuate?

A strong off-shore earthquake may generate a tsunami. Therefore, if you feel the ground shake, evacuate inland or to high ground immediately and return only after officials say it is safe to do so. During distant source tsunami events, local Civil Defense officials will advise citizens to evacuate by sounding the Civil Defense

EMERGENCY PREPAREDNESS

sirens, making an announcement over the Emergency Alert System (EAS) or over NOAA Weather Radio or local radio broadcasts. Compliance is voluntary, but orders are given only in the most serious of circumstances.

Where do I evacuate?

Go to an area 50 feet above sea level, if possible. If you don't have time to travel to high ground, but are in a multi-story building, go to an upper level of the home or building. If you are on the beach and unable to get to high ground go inland as far as you can. The tsunami evacuation maps found in the Verizon Telephone Book illustrates the primary evacuation routes. Take your disaster supply kit with you, if possible.

Shelters will be opened as needed. Listen to your radio for details. Pets are NOT allowed at all emergency shelters so please plan ahead for their safety.

How do I get to inland or to high ground?

- Go on foot if necessary, particularly if an earthquake has caused damage to roads, power lines, and resulted in significant debris.
- Remember: Never go to the coast to watch a tsunami. Tsunamis move faster than a person can run. If you are camping on or near the beach, you may have to abandon your campsite to go inland or to higher ground to save your life.
- Do not return to shore after the first wave. Wait for Emergency Management officials to give the "All Clear" before you return.
- If you see an unexpected rise or fall in the coastal water, a tsunami may be approaching. Do not wait - instead move inland or uphill as quickly as possible.
- Stay tuned to your radio, marine radio or NOAA Weather Radio during a disaster. Bulletins will be issued regularly through local Emergency Management officials and National Weather Service.
- Call 9-1-1 only for life threatening emergencies.

What should I do if an earthquake occurs while at the coast?

- Drop, cover and hold. Get under a sturdy object and hold on. Watch for falling objects.
- As soon as the shaking is over, move to high ground or inland. Do not wait for an official warning.
- Stay away from the coast. Waves may continue to arrive for hours.
- Listen to your local radio station for an official "All Clear" notice before returning to the coastal area.
- Be alert for aftershocks

EMERGENCY PREPAREDNESS

What can I do to protect myself from a tsunami?

- Develop a family disaster plan. Everyone needs to know what to do on their own to protect them from an earthquake.
- Be familiar with local Emergency Management earthquake and tsunami plans. Know where to go to survive a tsunami.
- Be prepared to survive on your own for a minimum of three days. Prepare a disaster supply kit for your home, automobile and work. A list of recommended supplies for your kit can be found on this web site.
- Take a first aid course and learn survival skills. Knowledge is your greatest defense against potential disaster.

RESOURCE DATABASE/DIRECTORY INCLUSION

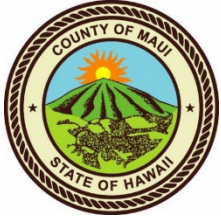

If an agency or organization wishes to be included in the resource database and future printings of this resource directory, please visit the Maui County Office on Aging and ADRC at www.mauicountyadrc.org and navigate to the “Resource Database Corner.” From this tab, users may apply for inclusion into the resource database and future printings of the resource directory.

Qualified service providers that empower older adults, disabled adults, and/or family caregivers to make personal decisions, plans, and connections that allow them to live as independently and fully as possible shall be included in the ADRC resource database (if all inclusion policies are met). For further details of the Aging and Disability Resource Center “Resource Database Inclusion and Exclusion Policies,” please visit the “Resource Database Corner” on the Maui County Office on Aging and ADRC website or contact us at (808) 270-7774.

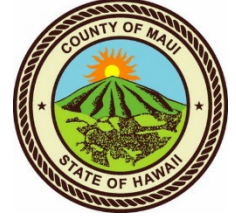

Disclaimer: The Maui County Office on Aging and ADRC will make every effort to provide complete and accurate information, but it neither guarantees nor makes any representation as to the accuracy or completeness of the information contained in its resource database or printed materials. Due to the nature of any printed resource, contact information may have changed from the print date.

The Maui County Office on Aging and ADRC does not endorse or sponsor any of the resources listed in the resource database, resource directory, website, or any other publication. The user takes full responsibility to further research the services and information listed in the resource directory, website, or other publications.

AGING AND DISABILITY RESOURCE CENTER

We promote and protect the well-being of frail elders, caregivers, and persons with disabilities so that frail elders can live in the comfort of their homes for as long as possible and appropriate, by:

- ◆ Advocating for and planning in-home and community-based services
- ◆ Assisting with the completion of application forms
- ◆ Helping navigate social and health services
- ◆ Informing people about resources for older adults
- ◆ Linking elders and caregivers to available services
- ◆ Presenting information to clubs, agencies and organizations
- ◆ Referring to programs, services and available resources
- ◆ Visiting elders and caregivers at home to assess and address needs
